

### The orbs of peace

This morning I agreed to take a moment of contemplation to project my consciousness on the events of Japan, Libya, Africa... During my meditation, I joined myself to the offer of the Japanese Masaru Emoto who is one of the scientists discoverers of the memory of water, in order to ask in my name and on the behalf of humanity, forgiveness to the consciousness of Mother Earth for the pollution engendered by the Fukushima disaster. I had filled a jar of water that I had put against me during twenty minutes, with this intention of forgiveness. I had to pour it at midday in the river at the bottom of my place, according to its request.

During this meditation, appeared on the wall of my bedroom, a luminous heart that came out from nowhere! That is when I received a message from my friend Christine. She shows me hundreds of small multicoloured bubbles, then tells me :

Are you seeing what I am showing you? You already know what it is about. They are orbs. However, these are not any kind of orbs. These are the ones that you have just produced during your meditation. There are hundreds and they reproduce themselves at a phenomenal speed. I show them and explain to you what it is about.

Without being aware of it, the orbs that you have just produced are the consequence of the intention of forgiveness, that you have emitted through your thought. It is in a way of speaking “magnetic bubbles” containing an information, that spread through superior dimensions. These electromagnetic micro-fields contain codes of electric pulses that are information allowing to neutralise radioactivity. This phenomenon is comparable to the one of electrodes immersed into acid producing bubbles during a chemical reaction.

In this way, the orbs that you have produced are programmed, through the emitted intention, to decontaminate the water and the atmosphere surrounding. Consciousness being omnipotent, the simple fact of emitting an intention in accordance with your superior Self, allows to act on the proceedings of an event, no matter the distance.

These orbs, as they respond to your intention, have had a multiplying effect at each contact with a radioactive atom to neutralise it.

The feature of this atomic radiation is that it is harmful only in certain dimensions of existence of low dual densities. Beyond, in the superior unified dimensions, it cancels or rebalances automatically.

It is its feature but also its weakness. When radioactivity comes from a very dense dimension like your third density, the more it reaches superior dimensions, the more its duration of half-life is found reduced and the harmful radiations lose their effects.

The archons of the dark light also know about this phenomenon. A few of them have access to superior vibrating levels of existence. They are however not present anymore beyond the 5th density.

In this way, their evil objective was to slow down the vibratory rise of Planet Earth in order to maintain as long as possible humanity under their yoke. Through the polluting effects of radioactivity, they have tried to prevent the magnetic terrestrial mesh to reach the 5th vibrating density. They had underestimated the determination of the incarnated angels and the will of awakening of humans.

During a previous message, we told you that some of you by signing the petition in order to authorise the resort to the UN in Libya, have in reality let the military forces to use weapons to decree peace. If you are still not informed, your government has allowed the use of engines with uranium impoverished during the bombings of this country. What you still may not know, is that the winds coming from the Mediterranean return on your country the residues of radiations of uranium.

So you the incarnated angels, continue to visualise during your meditations the orbs that are multiplying themselves in order to transmute all the atomic radiations produced by the ignorance and stupidity of men.

Use your divine gift and your ego to put yourselves to the service of life, while having the intention of decontaminating Planet Earth. As it belongs to ego the role of expressing intentions. It can be towards the service of dark light by generating fear, conflicts, war... or to the service of Love to undertake its evolution and the one of humanity.

As Yeshua did it, forgive them, in the name of the divine Being that you are, as they do not know what they are doing.

History repeats itself.

Do not forget that the Beings of the dark light are also a part of you. That is for this reason that it is important that you become aware of your part of non light that has allowed this disaster.

So my dear friends, no need to climb on the barricades to protest. Learn again to express true love and not war.

As for me, I stay by your sides, I embrace you with my most friendly vibrations.

Your friend Christine.
